

DOG BED

Airlie

Elevated Dog Bed with Cooling Mesh Deck, 7" Off the Floor, to 88 lb

Large takes dogs to 44 lb, X-Large to 66 lb, XX-Large to 88 lb. Choose on his weight rather than his length – the mesh is what carries him.

SIZE
Large, X-Large, XX-Large

KEY FEATURES

- **Air underneath him.** A tensioned mesh deck 7 inches off the floor, so he sleeps cool rather than in foam.
- **The bolster comes off.** Six inches of it, detachable, for a dog who would rather stretch out.
- **No tools.** The powder-coated steel frame clips together.

Large	VI-DB-07266-01
X-Large	VI-DB-07266-02
XX-Large	VI-DB-07266-03

WHO IT FITS

Large takes dogs to 44 lb, X-Large to 66 lb, XX-Large to 88 lb. Choose on his weight rather than his length — the mesh is what carries him.

WILL IT FIT?

Size by your dog's weight rather than his length: Large to 44 lb, X-Large to 66 lb, XX-Large to 88 lb. The usable deck inside the bolster is smaller than the outside measurement - on the Large it is 24 × 22 in inside a 35 × 28 in frame. All three stand 11 in tall with the deck 7 in off the ground.

MATERIALS

Powder-coated steel tube

CARE

Remove and wash the cover as directed; air the foam and let everything dry fully before reassembling.

WARRANTY & RETURNS

Frames and hardware: 5 years. Covers, foam, fabric and mesh: 1 year. Cover runs from delivery, for the original buyer; chewing, clawing, overloading, misuse and normal wear are not covered. Returns within 30 days of delivery, unused and in original packaging, with no restocking fee. If it arrives damaged or wrong, we pay the return shipping.

Setup & use

GETTING STARTED

1. **Take the bolster off in summer.** It lifts away as one piece. Bare mesh is the coolest the bed gets, and it is the reason to own this one rather than a mattress.
2. **Put it where the air moves.** A doorway, a shaded terrace, a room that gets a through-draft. A cot in a stuffy corner is just a firm bed.
3. **Put the bolster back in fall.** Something to lean against, and the plush mat over the mesh. The same frame does both halves of the year.

BEFORE YOU START

- ☐ Your dog measured lying stretched out, nose to base of tail
- ☐ The spot your dog already chooses to sleep in
- ☐ Room for the bed away from radiators and drafts

PLACEMENT GUIDELINES

SIZE

Measure your dog lying stretched out, nose to base of tail, and add about 6 in (15 cm) so it can straighten out.

POSITION

Put the bed where your dog already sleeps; dogs choose spots for warmth, drafts and a view of the room.

SETTLING IN

A dog used to a soft bed may take a few nights to accept a firmer one. A familiar blanket on top helps.

Safety. Supervise dogs that chew. Keep the bed away from open fires and heaters.
