Beige	VI-DR-71106-02

WHO IT FITS

Small and medium dogs up to 110 lb, and cats. Sofa and low-bed height — a footstool the rest of the time.

WILL IT FIT?

It stands 19.5 inches tall and needs 27.6 inches of floor once the ramp is down. That suits a sofa, an armchair or a low-to-standard bed. Measure floor to cushion first - if your bed is over about 22 inches, this is the wrong height and you want a taller set of steps.

CARE

Wipe or brush off dirt after use; let it dry fully before folding away.

WARRANTY & RETURNS

Frames and hardware: 5 years. Covers, foam, fabric and mesh: 1 year. Cover runs from delivery, for the original buyer; chewing, clawing, overloading, misuse and normal wear are not covered. Returns within 30 days of delivery, unused and in original packaging, with no restocking fee. If it arrives damaged or wrong, we pay the return shipping.

Setup & use

GETTING STARTED

1. **Leave it where the sofa is.** It is furniture, so it can live in place permanently. That is what makes the dog actually use it.
2. **Open the lid forward.** The lid hinges down into the ramp, black deck upward. Two seconds, no lifting, nothing to fetch.
3. **Walk him up with a treat.** Short ramps are steeper than long ones, so give him a reason the first few times. Once he has done it twice he stops thinking about it.

BEFORE YOU START

- ☐ Height measured from the floor to the surface your dog steps onto
- ☐ Floor space for the full length of the ramp, plus room to turn at the bottom
- ☐ A non-slip surface under the foot of the ramp
- ☐ Treats for the first few sessions

PLACEMENT GUIDELINES

ANGLE

The longer the run for a given height, the gentler the slope. Older and arthritic dogs do best on the shallowest angle the space allows.

TOP EDGE

Set the top edge flush with, or just under, the surface it meets, so there is no lip to catch a paw.

TRAINING

Introduce it flat on the floor first, then raise it a little at a time over a few days.

Safety. Do not exceed the listed weight capacity. Check that the ramp is seated and stable before every use, and walk beside your dog until it is confident.
