

DOG RAMP

Fellside

Folding Dog Ramp for Car and SUV, 61-Inch, 150 lb

Dogs up to 150 lb, reaching a trunk up to 28 inches off the ground. Measure yours – above 28 inches the slope gets too steep and Tor is the one.

PRODUCT TYPE	Dog Ramp
OPEN LENGTH	61.2 in (155 cm)
WIDTH	15.7 in (40 cm)
SIDE RAIL HEIGHT	5.7 in (14.5 cm)
FOLDED SIZE	31 × 15.7 × 7.3 in
WEIGHT CAPACITY	150 lb (68 kg)
MAXIMUM LOAD HEIGHT	28 in (71 cm)
MATERIAL	Molded composite, grit non-slip tread
COLOR	Black
ASSEMBLY	None - arrives ready to use

Dimensions are approximate. Natural materials vary slightly from piece to piece.

KEY FEATURES

- **Side rails.** 5.7 inches high, so an unsteady dog has something to lean into.
- **Grit tread.** Molded composite with a non-slip surface that still works wet.
- **Folds in half.** Down to 31 inches, reaching a trunk up to 28 inches off the ground.

CONFIGURATIONS

CONFIGURATION	CATALOGUE NO.
Standard	VI-DR-98786-01

WHO IT FITS

Dogs up to 150 lb, reaching a trunk up to 28 inches off the ground. Measure yours — above 28 inches the slope gets too steep and Tor is the one.

WILL IT FIT?

Measure from the ground to the surface your dog steps onto. This ramp is built for load heights of 28 inches or less - most saloons, hatchbacks, estates and mid-size crossovers. Lifted SUVs and pickup beds need a longer ramp.

MATERIALS

Molded composite, grit non-slip tread

CARE

Wipe or brush off dirt after use; let it dry fully before folding away.

WARRANTY & RETURNS

Frames and hardware: 5 years. Covers, foam, fabric and mesh: 1 year. Cover runs from delivery, for the original buyer; chewing, clawing, overloading, misuse and normal wear are not covered. Returns within 30 days of delivery, unused and in original packaging, with no restocking fee. If it arrives damaged or wrong, we pay the return shipping.

Setup & use

GETTING STARTED

1. **Lay it flat.** Put the ramp on the floor indoors, flat, nowhere near the car. Walk him across it for treats until it stops being interesting. A few minutes at a time.
2. **Raise it slowly.** Once he crosses without thinking, lift one end a few inches and repeat. Do that over two or three days rather than one afternoon.
3. **Take it to the car.** Set it against the trunk at the gentlest angle your car allows, and walk beside him the first few times. Most dogs are confident inside a week.

BEFORE YOU START

- ☐ Height measured from the floor to the surface your dog steps onto
- ☐ Floor space for the full length of the ramp, plus room to turn at the bottom
- ☐ A non-slip surface under the foot of the ramp
- ☐ Treats for the first few sessions

PLACEMENT GUIDELINES

ANGLE

The longer the run for a given height, the gentler the slope. Older and arthritic dogs do best on the shallowest angle the space allows.

TOP EDGE

Set the top edge flush with, or just under, the surface it meets, so there is no lip to catch a paw.

TRAINING

Introduce it flat on the floor first, then raise it a little at a time over a few days.

Safety. Do not exceed the listed weight capacity. Check that the ramp is seated and stable before every use, and walk beside your dog until it is confident.
