

DOG BED

Glade

Orthopedic Dog Bed for Large Dogs, Solid Foam Slab, 39" to 53"

Large suits dogs 55–88 lb, up to XX-Large at 53 × 39 inches. The front edge is low and open, so there is nothing to climb over to get in.

Dimensions are approximate. Natural materials vary slightly from piece to piece.

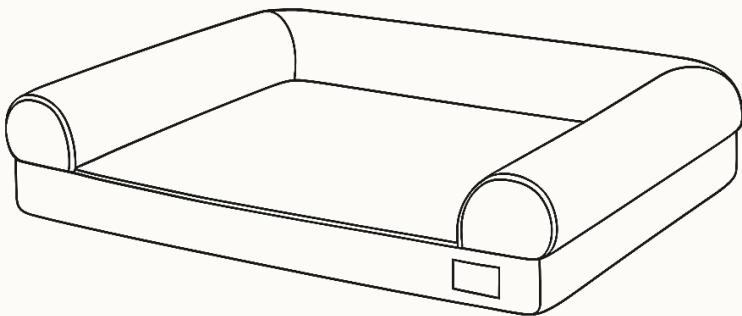

OPTIONS

SIZE
Large, X-Large, XX-Large

KEY FEATURES

- **One solid slab.** High-density foam that doesn't bottom out the way a filled bed does.
- **Low open front.** Nothing to climb over to get in or out.
- **Suede-touch cover.** Unzips and machine washes, over a 7.4-inch base.

XX-Large	VI-DB-05570-03

WHO IT FITS

Large suits dogs 55–88 lb, up to XX-Large at 53 × 39 inches. The front edge is low and open, so there is nothing to climb over to get in.

WILL IT FIT?

Measure your dog nose to tail lying stretched out, then add about six inches so he can straighten out rather than curl to fit. Large (39 × 30 in) suits roughly 55–88 lb. X-Large (47 × 33 in) for bigger or longer dogs. XX-Large (53 × 39 in) for giant breeds or two dogs who share.

CARE

Soft suede-touch, unzips, machine washable

WARRANTY & RETURNS

Frames and hardware: 5 years. Covers, foam, fabric and mesh: 1 year. Cover runs from delivery, for the original buyer; chewing, clawing, overloading, misuse and normal wear are not covered. Returns within 30 days of delivery, unused and in original packaging, with no restocking fee. If it arrives damaged or wrong, we pay the return shipping.

Setup & use

GETTING STARTED

1. **Put it where he already sleeps.** Not where you would like him to sleep. Dogs pick a spot for drafts, warmth and sight lines, and they rarely change their minds for new furniture.
2. **Expect a week of suspicion.** A dog coming off a soft bed will often refuse a firm one at first. Put his old blanket on top for a few nights, then take it away.
3. **Wash the cover, not the foam.** Unzip it, cold wash, air dry. The foam slab stays out of the machine - it is what you paid for.

BEFORE YOU START

- ☐ Your dog measured lying stretched out, nose to base of tail
- ☐ The spot your dog already chooses to sleep in
- ☐ Room for the bed away from radiators and drafts

PLACEMENT GUIDELINES

SIZE

Measure your dog lying stretched out, nose to base of tail, and add about 6 in (15 cm) so it can straighten out.

POSITION

Put the bed where your dog already sleeps; dogs choose spots for warmth, drafts and a view of the room.

SETTLING IN

A dog used to a soft bed may take a few nights to accept a firmer one. A familiar blanket on top helps.

Safety. Supervise dogs that chew. Keep the bed away from open fires and heaters.
