WHO IT FITS

Three or four cats. Eight feet of walk-in run with seven platforms and more than one way up, so the smallest cat isn't cornered. This is the size people underestimate — measure first.

WILL IT FIT?

It is 96.5 inches wide, 70.9 deep and 70.9 tall: about eight feet by six of floor, on a flat, firm base. Measure before you order, because this is the size people underestimate. Allow two people and most of a day on a prepared base: this is a backyard structure, not a piece of furniture. Site it so a cat door opens into it, which is the best way to run one.

CARE

Waterproof

WARRANTY & RETURNS

Frames and hardware: 5 years. Covers, foam, fabric and mesh: 1 year. Cover runs from delivery, for the original buyer; chewing, clawing, overloading, misuse and normal wear are not covered. Returns within 30 days of delivery, unused and in original packaging, with no restocking fee. If it arrives damaged or wrong, we pay the return shipping.

Assembly & placement

GETTING STARTED

1. **Prepare a flat, firm base.** It is a backyard structure. Measure the space before you order.
2. **Site it so a cat door opens into it.** It is the best way to run one.
3. **Watch the dynamic for the first week.** If one cat is monopolizing the top, add a second high platform.

BEFORE YOU START

- ☐ A flat, firm base
- ☐ Shade, water and a shelter box in place
- ☐ Two people for assembly

PLACEMENT GUIDELINES

BASE

Build it on a flat, firm surface; on soft ground it can settle unevenly and the doors may stop closing.

SHELTER

Site it with the open sides away from the prevailing weather and give your cat shade and water.

FIRST VISITS

Start with short, supervised sessions in good weather.

Safety. Check the mesh, latches and fixings regularly. Do not leave a cat in it in extreme heat, cold or storms.
