

CAT WALL FURNITURE

Perch

Cat Wall Shelves and Perches Set, 7 Pieces with Hammock

*Cats of any size, provided you fix into masonry or studs – the weak point is never the shelf, it is the fixing.
Most cats take a 10–14 inch rise between steps; older cats want less.*

SPECIFICATIONS

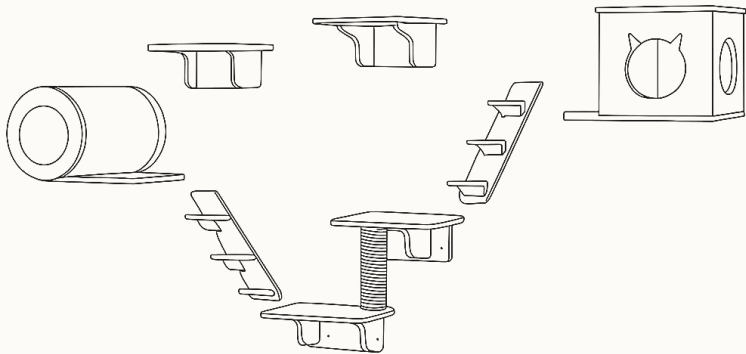

PRODUCT TYPE	Cat Wall Furniture
TYPE	Wall shelves and jumping boards, with a hammock to finish
FIXING	Masonry with the right plugs, or plasterboard into studs
RISE BETWEEN STEPS	Start close; most cats take 10 to 14 inches, older cats less
PADS	Removable, washable
FLOOR SPACE	None, it bolts to the wall
COMBINES WITH	Our wall stairway, Ascent

Dimensions are approximate. Natural materials vary slightly from piece to piece.

KEY FEATURES

- **Costs you no floor.** It bolts to the wall, which is the whole argument for wall furniture over a tower.
- **You set the spacing.** Close together for an older cat, wider for a confident one.
- **The pads come off.** Removable for washing.

Ordering & details

Catalogue numbers are Viorn reference numbers. Quote the catalogue number when ordering or contacting us.

CONFIGURATIONS

CONFIGURATION	CATALOGUE NO.
Standard	VI-KW-88066-01

WHO IT FITS

Cats of any size, provided you fix into masonry or studs — the weak point is never the shelf, it is the fixing. Most cats take a 10–14 inch rise between steps; older cats want less.

WILL IT FIT?

Fix it into masonry with the right plugs, or into studs; do not hang a cat shelf on plasterboard alone with the supplied plugs. Start with the steps closer than you think: most cats take a 10 to 14 inch rise comfortably and older cats want less. You can always move them. It is designed to combine with our wall stairway.

CARE

Wipe with a damp cloth; remove and wash pads as directed.

WARRANTY & RETURNS

Frames and hardware: 5 years. Covers, foam, fabric and mesh: 1 year. Cover runs from delivery, for the original buyer; chewing, clawing, overloading, misuse and normal wear are not covered. Returns within 30 days of delivery, unused and in original packaging, with no restocking fee. If it arrives damaged or wrong, we pay the return shipping.

Installation & placement

GETTING STARTED

1. **Plan the route in pencil first.** Set the gaps to suit your cat. A confident young cat will take a wide stride; an older one wants them close.
2. **Find the studs.** The weak point is never the shelf; it is the fixing. Masonry with the right plugs, or studs.
3. **Add to it later.** It is designed to combine with our wall stairway: stairway first, then shelves and a hammock to finish.

BEFORE YOU START

- ☐ A stud finder, or masonry and the correct anchors
- ☐ A level, tape measure and pencil
- ☐ The whole route marked out on the wall first

PLACEMENT GUIDELINES

FIXING

Fix into wall studs or masonry with the correct anchors, never drywall alone.

SPACING

Start with the steps close together; most cats manage a rise of about 10–14 in, older cats less.

TESTING

Press down firmly on every piece before letting your cat use it.

Safety. Use fixings rated for the load and your wall type. Re-check fixings every few months.
