

CATIO

Pergola

Wooden Catio with Waterproof Roof, 70" with 5 Platforms

Cats of any size, one or two at a time. Seventy inches of enclosed outdoor run with a waterproof roof, five platforms and two shelter boxes.

SPECIFICATIONS

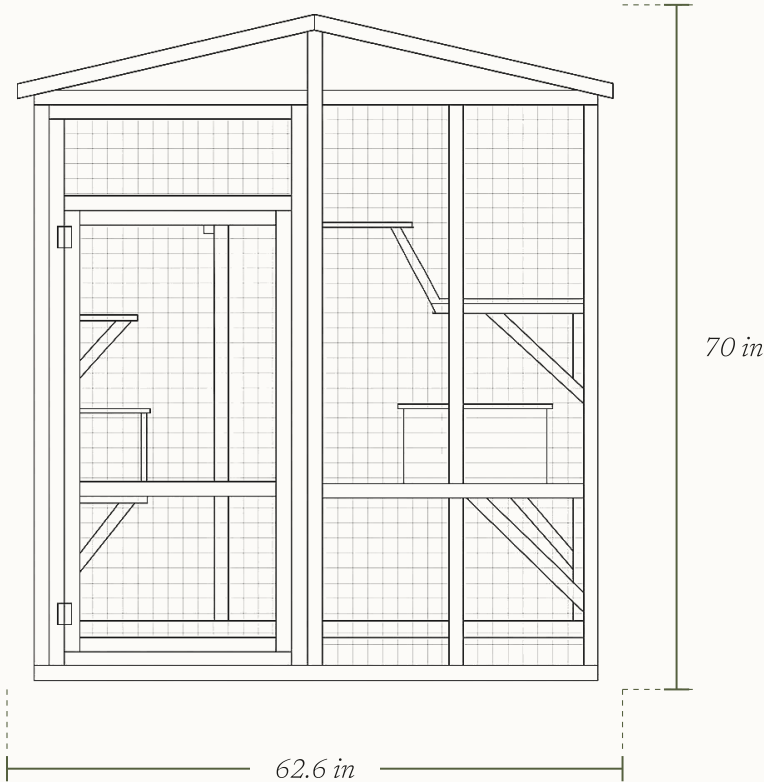

PRODUCT TYPE	Catio
SIZE	62.6 × 28.7 × 70 in
HEIGHT	70 in
PLATFORMS	Five
SHELTER BOXES	Two, closed
ROOF	Waterproof
FRAME	Timber with a wire mesh skin
FINISH	Arrives finished; re-treat the timber every year or two
ASSEMBLY	Flat-packed, two people, a couple of hours
BEST FOR	One or two cats, with shade, water and a shelter box

Dimensions are approximate. Natural materials vary slightly from piece to piece.

KEY FEATURES

- **Waterproof roof.** Usable in weather, with the mesh sides sited away from the wind.
- **Five platforms.** Different heights, plus two closed boxes to shelter in.
- **Timber and mesh.** A fixed structure rather than a flimsy pop-up — it stays where you put it.

MEASUREMENTS

WIDTH	62.6 in
DEPTH	28.7 in
HEIGHT	70 in
DEPTH WITH ROOF OVERHANG	32.8 in
SIZE	62.6 × 28.7 × 70 in

Five platforms, two resting boxes and a walk-in door under a waterproof roof. The roof overhangs the frame, so allow 32.8 in from the wall.

CONFIGURATION	CATALOGUE NO.
Standard	VI-KC-89762-01

WHO IT FITS

Cats of any size, one or two at a time. Seventy inches of enclosed outdoor run with a waterproof roof, five platforms and two shelter boxes.

WILL IT FIT?

It is 62.6 inches wide, 28.7 deep and 70 tall, and the roof overhangs to 32.8 inches deep, so allow that much from the wall or fence. It sits on a flat, firm base. Allow two people and a couple of hours to build it. The roof is waterproof but the sides are mesh, so site it with the open side away from the prevailing weather.

MATERIALS

Timber with a wire mesh skin

CARE

Brush off debris; treat timber parts as directed to keep them weatherproof.

WARRANTY & RETURNS

Frames and hardware: 5 years. Covers, foam, fabric and mesh: 1 year. Cover runs from delivery, for the original buyer; chewing, clawing, overloading, misuse and normal wear are not covered. Returns within 30 days of delivery, unused and in original packaging, with no restocking fee. If it arrives damaged or wrong, we pay the return shipping.

Assembly & placement

GETTING STARTED

1. **Site it with its back to the weather.** Put it against a wall or fence so the open mesh side faces away from the prevailing weather. The roof is waterproof; the sides are not.
2. **Build it where it will stand.** Flat-packed timber, two people, a couple of hours, on a flat base. It is not a piece to carry once built.
3. **Start with short visits.** Shade, water and a shelter box in place first. An hour or two in decent weather is plenty at first. It is not a substitute for a secure yard overnight.

BEFORE YOU START

- ☐ A flat, firm base
- ☐ Shade, water and a shelter box in place
- ☐ Two people for assembly

PLACEMENT GUIDELINES

BASE

Build it on a flat, firm surface; on soft ground it can settle unevenly and the doors may stop closing.

SHELTER

Site it with the open sides away from the prevailing weather and give your cat shade and water.

FIRST VISITS

Start with short, supervised sessions in good weather.

Safety. Check the mesh, latches and fixings regularly. Do not leave a cat in it in extreme heat, cold or storms.
