

CAT TREE

Redwood

Large Cat Tree for Big Cats, 67" Tall with 11 Sisal Posts

Big cats – maine coons, ragdolls, anything around 20 lb. Five perches, a hammock and a condo over 67 inches; three cats use it comfortably, more and they queue.

SPECIFICATIONS

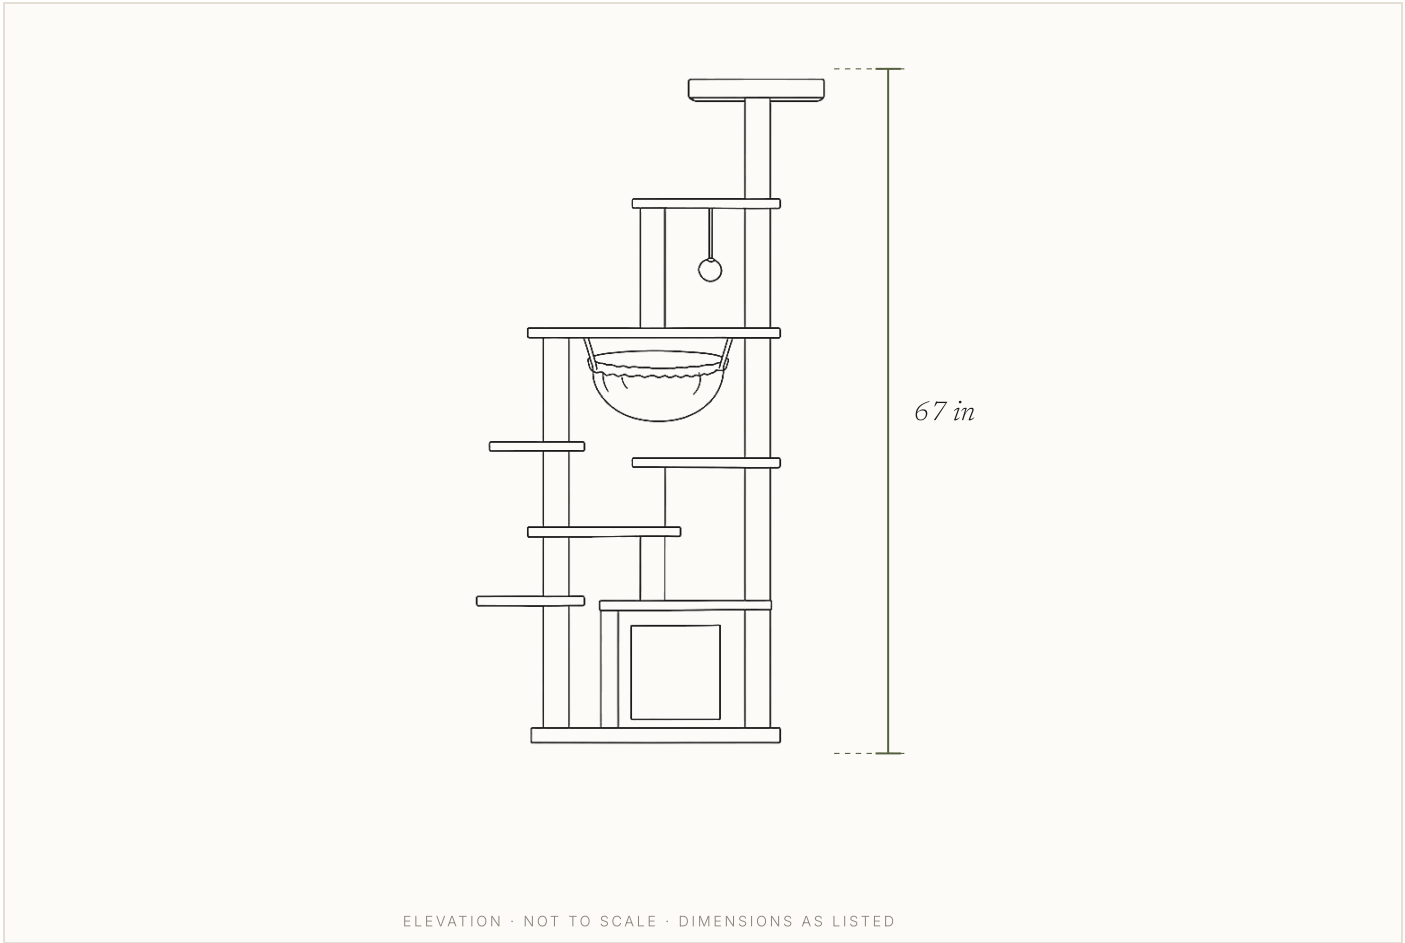

PRODUCT TYPE	Cat Tree
HEIGHT	67 in
BASE	About 23 in wide, double-layered and weighted
POSTS	Eleven, thick natural sisal rope
PERCHES	Five, wide enough to lie across
HAMMOCK	Deep and properly slung
CONDO	At the base
STABILITY	Wall-anchor strap in the box
ASSEMBLY	Flat-packed, bolt-together, about forty minutes
BEST FOR	Big cats, up to three at once

Dimensions are approximate. Natural materials vary slightly from piece to piece.

KEY FEATURES

- **Weighted double base.** Stays put when nine kilos arrives at speed.
- **Eleven thick sisal posts.** Real rope wound tight, not sisal-printed fabric.
- **A properly slung hammock.** Deep enough to hold a long, heavy cat instead of dropping him through.

WHO IT FITS

Big cats — maine coons, ragdolls, anything around 20 lb. Five perches, a hammock and a condo over 67 inches; three cats use it comfortably, more and they queue.

WILL IT FIT?

It stands 67 inches tall on a base about 23 inches across, so allow the floor space and check your ceiling. Five perches, a hammock and a condo: three cats use it comfortably. Build it where it will stand, because assembled it is tall and awkward to carry. There is a wall-anchor strap in the box for an uneven floor or enthusiastic cats.

CARE

Vacuum platforms; spot-clean fabric with a damp cloth; re-wrap worn sisal.

WARRANTY & RETURNS

Frames and hardware: 5 years. Covers, foam, fabric and mesh: 1 year. Cover runs from delivery, for the original buyer; chewing, clawing, overloading, misuse and normal wear are not covered. Returns within 30 days of delivery, unused and in original packaging, with no restocking fee. If it arrives damaged or wrong, we pay the return shipping.

Assembly & placement

GETTING STARTED

- 1. **Build it where it will stand.** Flat-packed and bolt-together, about forty minutes. Assembled it is tall and awkward to carry, so put it together in position.
- 2. **Anchor it if your floor is uneven.** There is a wall-anchor strap in the box. Use it on an uneven floor or if your cats are enthusiastic.
- 3. **Let them sort out the levels.** Five perches, a hammock and a condo mean two or three cats can use it at once without negotiating. Three is comfortable; more than that and they start queuing.

BEFORE YOU START

- ☐ A level spot near a window
- ☐ Floor-to-ceiling models: ceiling height measured against the adjustment range
- ☐ A wall strap for tall trees in homes with active or heavy cats

PLACEMENT GUIDELINES

POSITION

Near a window or in the room where people spend time; cats like a view and company.

STABILITY

Stand it on a level floor and anchor tall trees to the wall, especially for heavy or very active cats.

TENSION MODELS

Re-check the tension after the first week and every few months.

Safety. Check bolts and tension regularly. Replace worn sisal or damaged parts before they fail.
