WHO IT FITS

Small dogs only — cavaliers, bichons, shih tzus, small terriers, dachshunds. Anything bigger rides better on the back seat with Tourer. Most returns on this type of seat are dogs that were always too big.

WILL IT FIT?

This is built for small dogs: a cavalier, a bichon, a shih tzu, a small terrier, a dachshund. If your dog is bigger than that, or cannot turn round in it comfortably, he will be happier on the back seat with Tourer. Use it on the back seat only, never on a front seat with an active airbag.

CARE

Unzips and machine washes cool; the inner cushion lifts out

WARRANTY & RETURNS

Frames and hardware: 5 years. Covers, foam, fabric and mesh: 1 year. Cover runs from delivery, for the original buyer; chewing, clawing, overloading, misuse and normal wear are not covered. Returns within 30 days of delivery, unused and in original packaging, with no restocking fee. If it arrives damaged or wrong, we pay the return shipping.

Setup & use

GETTING STARTED

1. **Pull the belt tight and lock it.** The seat belt through the rear loops is what holds it. The base will not move once the belt is locked.
2. **Clip the tether to his harness.** It stops him climbing out and getting under your feet. It is containment, not a seat belt.
3. **Use it as his bed at home.** Set it on the floor between trips, which is usually how it gets used.

BEFORE YOU START

PLACEMENT GUIDELINES

SEAT

Use the back seat. Never place a dog in the front seat of a car with an active airbag.

TETHER

Clip any tether to a harness and keep it short enough that your dog cannot reach the front.

BREAKS

On long trips stop regularly for water and a walk.

> **Safety.** This is a comfort and containment product, not a crash-tested restraint. Never leave a dog alone in a car.
