SIZE
Large, X-Large, XX-Large, XXX-Large

KEY FEATURES

- **Flat, no bolsters.** Nothing to climb over, which is the whole point for a stiff or arthritic dog.
- **Waterproof layer.** Sits under the cover, so an accident never reaches the foam.
- **Four sizes.** From 36 × 27 inches up to 50 × 36, and it fits a crate or a car trunk.

XXX-Large	VI-DB-40034-04

WHO IT FITS

Stiff or arthritic dogs at any size, from Large at 36 × 27 inches up to XXX-Large at 50 × 36. Flat, with no bolster to climb over.

WILL IT FIT?

Measure your dog lying stretched out on his side and add a few inches. Because there are no bolsters, the whole surface is usable - a 36 × 27 in Large gives more sleeping area than a bolstered bed of the same outside size. If it is going in a crate, measure the crate floor instead.

CARE

Unzips, machine washable

WARRANTY & RETURNS

Frames and hardware: 5 years. Covers, foam, fabric and mesh: 1 year. Cover runs from delivery, for the original buyer; chewing, clawing, overloading, misuse and normal wear are not covered. Returns within 30 days of delivery, unused and in original packaging, with no restocking fee. If it arrives damaged or wrong, we pay the return shipping.

Setup & use

GETTING STARTED

1. **Put it flat on the floor, not in a corner.** No sides means he can get on from any direction. Blocking three of them with furniture throws that away.
2. **Use the grip base on hard floors.** Flagstone, tile and boards are where a mat slides and a stiff dog loses confidence. The dotted underside is the part that matters there.
3. **Wash the cover, keep the layers.** Cover unzips and goes in cold. The memory foam and the waterproof layer stay out of the machine.

BEFORE YOU START

- ☐ Your dog measured lying stretched out, nose to base of tail
- ☐ The spot your dog already chooses to sleep in
- ☐ Room for the bed away from radiators and drafts

PLACEMENT GUIDELINES

SIZE

Measure your dog lying stretched out, nose to base of tail, and add about 6 in (15 cm) so it can straighten out.

POSITION

Put the bed where your dog already sleeps; dogs choose spots for warmth, drafts and a view of the room.

SETTLING IN

A dog used to a soft bed may take a few nights to accept a firmer one. A familiar blanket on top helps.

Safety. Supervise dogs that chew. Keep the bed away from open fires and heaters.
